Valid & Transferable Iqama

PROFESSIONAL SUMMARY

Data Analyst with a Computer Science background and hands-on experience transforming business data into decision-ready insights through Power BI, SQL, Python, and Pandas. Experienced in data preparation, modeling, KPI reporting, dashboard development, customer and product analysis, profitability and returns analysis, and time-series reporting. Combines strong analytical reasoning with business requirements experience and a software/AI development background.

CORE DATA ANALYTICS SKILLS

- Business Intelligence & Visualization: Power BI, Interactive Dashboards, KPI Cards, Slicers, Drill-Down, Decomposition Tree, Key Influencers, Analytical Storytelling
- Data Analysis: Sales Analysis, Profitability Analysis, Customer Segmentation, Product Analysis, Returns Analysis, Trend & Time-Series Analysis
- Data & Programming: SQL, Python, Pandas, MySQL, Data Preparation, Data Modeling, DAX
- Business & Technical: Business Analysis, Requirements Gathering, Excel, Git/GitHub, Statistical & Machine Learning Foundations, Scikit-learn

DATA ANALYTICS PROJECTS & PROFESSIONAL DEVELOPMENT

Data Analytics - Self-Directed Projects & Professional Development

May 2026 - Aug 2026

- Built end-to-end Power BI reports that transformed business datasets into actionable KPIs, trends, comparisons, and drill-down analysis.
- Applied data preparation, modeling, filtering, visualization, and analytical reasoning across sales, profit, customer, product, returns, geography, and time dimensions.
- Used SQL and Python/Pandas to support data exploration, transformation, validation, and reporting workflows.

Adventure Works Business Intelligence Dashboard

Power BI | Data Modeling | DAX | Data Visualization | 6 Report Pages

- Built a six-page analytical report covering Sales Summary, Customer Insights, Time Analysis, Returns & Profitability, Profit & Cost Analysis, and Advanced Analytics.
- Analyzed 84K order quantity, 18.14K customers, 293 products, and 107K order line items across customer, product, time, and geographic dimensions.
- Segmented customers by income, education, gender, home ownership, and occupation; analyzed monthly product and category demand patterns.
- Evaluated returns, product profit, price vs. cost, profitability, and country-level sales/profit; used Decomposition Trees and Key Influencers for diagnostic analysis.

Sales & Profit Analysis Dashboard

Power BI | SQL | Pandas | Interactive Business Intelligence Dashboard

- Designed Sales, Profit, and Details report pages with interactive slicers for employee, stock item, city, state/province, customer, and buying group.
- Built KPI cards reporting 19.88M total sales, 9.96M cost, 10M total profit, 50% profitability, and quantity metrics in the project dataset.
- Visualized year-over-year and stock-item performance and used a Decomposition Tree to investigate profit by state/province, year, and quarter.

RELATED PROFESSIONAL EXPERIENCE

Business Analyst & Frontend Developer

Advertising & Exhibition Agency - Saudi Arabia | Oct 2025 - Apr 2026

- Gathered and analyzed business requirements and translated them into detailed technical specifications and scalable digital solutions.
- Delivered 4+ digital exhibition platforms and portfolio websites while collaborating with marketing and creative teams under tight deadlines.

AI Developer (Reserve Officer)

Egyptian Armed Forces - Military Grade AI Systems | Jan 2024 - Oct 2025

- Developed an NLP-based Q&A system and data-processing pipeline; trained and validated models reaching 94% intent classification and retrieval accuracy.
- Integrated the solution with existing databases and optimized response efficiency and secure data handling.

Machine Learning Engineer - Graduation Project

Mansoura University | Nov 2022 - Aug 2023 | Grade: Excellent

- Collected and curated 5,000+ samples, performed preprocessing and feature engineering, and trained classification models using Python, Pandas, TensorFlow, and Scikit-learn.
- Evaluated models using precision, recall, and F1-score and achieved 89% multi-class classification accuracy.

EDUCATION & CERTIFICATION

Bachelor's Degree in Computer Science - Mansoura University, Egypt | June 2023

GPA: Excellent (85.3%) | Graduation Project: Excellent | Dean's Honor List

Web Development Using PHP - Information Technology Institute (ITI), Cairo | 150 hours | Jul-Sep 2022
